

## CABINETS

## STRUCTURE

## TOP AND BOTTOM:

**Melamine:** of 25 mm thick with 2 mm edges around the entire perimeter. Finishes: silver, graphite, white, grey, beech, maple, pear, wengue, light acacia, dark acacia, zebrano, oak or dark oak.

Tops include screws to be assembled to structure (sides and back panel). Single or multi tops are available.

Bottom includes 4 levellers.

**SIDES:** melamine of 19 mm thick with 0,8 mm front edges. Sides are drilled with OH system: the distance between drill holes is 32 mm. Finishes: silver, graphite, white, grey, beech, maple, pear, wengue, light acacia, dark acacia, zebrano, oak or dark oak.

**BACK PANEL:** melamine of 8 or 19 mm thick. Finishes: silver, graphite, white, grey, beech, maple, pear, wengue, light acacia, dark acacia, zebrano, oak or dark oak.  
8 mm back panel is without edges and is assembled in structure milling.  
19 mm back panel with 0,8 mm edges is assembled and even the structure.

## FILES AND DOORS

**Melamine hinged doors:** of 19 mm thick with 2 mm edges around the entire perimeter. Latch hook locking system. Master key or same keys options are available (Silver finish - RAL 9006). Zinc-coated locking bar. Two door opening angle: 110° or 270°. With handles. Finishes: silver, graphite, white, grey, beech, maple, pear, wengue, light acacia, dark acacia, zebrano, oak or dark oak.

**Melamine "push to open" doors:** of 19 mm thick with 2 mm edges around the entire perimeter. "Push to open" locking system with magnet. Two door opening angle: 110° or 270°. Without handles. Finishes: silver, graphite, white, grey, beech, maple, pear, wengue, light acacia, dark acacia, zebrano, oak or dark oak.

**Melamine sliding doors:** of 19 mm thick with 2 and 0,8 mm edges. Bearing guides (bottom) and guiding rail (top). Press locking cylinder system. Master key or same keys options are available (Silver finish - RAL 9006). With handles. Finishes: silver, graphite, white, grey, beech, maple, pear, wengue, light acacia, dark acacia, zebrano, oak or dark oak.

**Glass hinged doors with frame:** 4 mm tempered glass. Anodized aluminium frame. Latch hook locking system. Master key or same keys options are available (Silver finish - RAL 9006). Zinc-coated locking bar. Door opening angle: 110°. With handles. Glass finishes: white, black, translucent or clear.

**Glass hinged doors without frame:** 4 mm tempered glass. Door opening angle: 110°. Without locking system. With handles. Glass finishes: white, black, translucent or clear.

**Tambour sliding doors:** triple PVC blades which slide on ABS guides. Hook shaped locking systems. Master key or same keys options are available (Silver finish - RAL 9006). Embedded handles. Finishes: silver, graphite, white, grey, beech, maple, pear, wengue, light acacia, dark acacia, zebrano, oak or dark oak.

**Melamine files:** of 19 mm thick with 2 mm edges around the entire perimeter. Drawers are assembled to the metal telescopic files with M6x10 screws. The locking system is horizontal. Telescopic metal files are manufactured with steel plate of 1,5mm thickness and painted with black epoxy paint. Telescopic guides are total extension slide with steel ball bearing system. Maxim load of 40kg. With handles. Finishes: silver, graphite, white, grey, beech, maple, pear, wengue, light acacia, dark acacia, zebrano, oak or dark oak.

## COMPLEMENTS

**HANDLES:** two rectangular shapes are available. Finishes: anodized aluminium, white or graphite.

**HANDLES (for glass doors):** anodized aluminium square shape.

## SHELVES:

**Melamine:** of 25 mm thick with 2 mm front edges (fixed and divider) and with 0,8 mm front edges (normal). Finishes: silver, graphite, white, grey, beech, maple, pear, wengue, light acacia, dark acacia, zebrano, oak or dark oak.

**Metal:** cold folded steel sheet of 0,8 mm quality DC01. Available finishes: silver (RAL 9006), white (RAL 9016) or graphite (RAL 7022).

Shelves can be fixed, adjustable or divider.

## MULTI-TOP:

**Melamine:** of 25 mm thick with 2 mm edges around the entire perimeter. Finishes: silver, graphite, white, grey, beech, maple, pear, wengue, light acacia, dark acacia, zebrano, oak or dark oak.

## PLINTH:

**Melamine:** of 19 mm thick with 0,8 mm side edges. 80 mm height. Finishes: silver, graphite, white, grey, beech, maple, pear, wengue, light acacia, dark acacia, zebrano, oak or dark oak.

**Metal:** cold folded steel sheet of 1,2 mm quality DC01. 40 or 80 mm height. Available finishes: silver (RAL 9006), white (RAL 9016) or graphite (RAL 7022).

**METAL TELESCOPIC FILES:** telescopic metal files are manufactured with steel plate of 1,5mm thickness and painted with black epoxy paint. Telescopic guides are total extension slide with steel ball bearing system. Maxim load of 40kg. Optional: stopper fitting (black Ø 4 mm steel tube) for folders not to rise above.

**TELESCOPIC SHELF:** Chrome finish. For clothes.

**OPENING LIMITER:** for hinged doors. From 270° to 90°. Aluminium finish.
